

Our Mission: "To celebrate and perpetuate the history, art and culture of the Chisholm Trail, the American Cowboy and the American West."

Celebrating 10 years of membership

We just celebrated our first round of 10 year members/founders, with a small party to honor them. Even though the Chisholm Trail Heritage Center opened in 1998, it was not until 2004 that memberships were created. Without the memberships and donations, the museum would not be the success it is today. The funding enhances our education department, therefore allowing us to connect with children from around the region, many from the smallest, rural communities. We continue to follow our mission statement, which is posted at the top of each newsletter. For many of

these children, it is the first time they've visited a museum. They have so much fun, they don't even realize they are learning about the heritage of this region. They are exposed to required elements of education, through this year's STEAM curriculum -

Science, Technology, Engineering, Art and Math. In the September newsletter, we announced that our education department has again earned the Great Expectations Model School certification. This is the eighth year for this

honor. Please visit our website: www.onthechisholmtrail.com if you are interested in becoming a member. You can also call or email us: at (580) 252-6692, or stacy@onthechisholmtrail.com

EDUCATION

Holidays on the Trail booking now

Our Abernathy Boys session for fall programming attracted as much attention from adults as it did the children this year. Leah Mulkey, education coordinator, said 765 students participated in the Abernathy Boys sessions, nearly identical to last year's attendance. Now the transformation of the museum is underway for Holidays on the Trail. "This time, it is based on more things to do with the Chisholm Trail," Mulkey says. Using the STEAM curriculum, students will learn about the science of bugs, scorpions, spiders and ticks; the technology of sign language and the advances made to help deaf people; engineering of barbed wire and its invention, along with how it was responsible for the demise of open range

land; create an art project using burlap; and the math of the cattle business. Educator and sign language expert, Mikayla Riddles, will portray the female character of Willie Matthews. Willie dressed as a boy so she could gain work on a cattle drive. As with all of our education programs, students get a chance to learn about art and enjoy a scavenger hunt in our Garis Gallery of the American West. This year, Leah has put together a hunt "Cowboys, Cattle & Barbs" using the artwork that depicts life on the Chisholm Trail during the harsh winters in which cowboys had to work hard to keep cows alive.

Call Leah today to book your classroom for this session. (580) 252-6692, or email her: leah@onthechisholmtrail.com

She gave life to the past

In October, we said our goodbyes to one of our educators, Beverly Ann Scott, when she died unexpectedly. Beverly loved her role as art educator and historical interpreter, bringing laughter to the groups of children, as she portrayed the colorful character of Miss Molly Bugbee or gave thoughtful insight in her role as Toe-Pay, wife of Quanah Parker. She created many of her own props, and spent hours researching and preparing for the field trip groups. She enjoyed her photo

shoots which helped her get into the character of each of her roles. Our sympathy and thoughts are with her family.

SHOP "ON THE TRAIL"
